Compagnie Altitude

The
High Wire Walks

The

High Wire Walks

With the company Altitude,
Didier Pasquette realizes great

high wire walks

in collaboration with
directors or events designers.

Between buildings or cathedrals,

between towers or over a river,

it offers a magic moment, in suspension,
so that we will never look at these sights

the same again.

The

High Wire Walks

Practical Informations:

- 3 people on the move : Didier Pasquette and 2 technical assistants;
- One or more locations needed in advance carried by Didier Pasquette with the organizer's technical team;
- Several ways of proceeding: with 1 or 2 high wire walkers on the same cable, following or crossing each other in the middle of the walk or with an acrobat with aerial fabric hanging from the cable;
- Price: variable according to the height, length and time of the set up and set down (contact us).
