JOKER

Bataille des nombres

<http://cheznonete.e-monsite.com/>

Règle du jeu:
de 2 à personnes

Distribuer toutes les cartes :
30 cartes + 2 jokers pour les
nombres de 1 à 5
50 cartes + 4 jokers pour les
nombres de 1 à 10 (choisir
5 séries de nombres)

Chaque joueur pose à tour de rôle la carte du dessus du paquet sur la table. Celui qui a le plus grand nombre empoche les cartes.
S'il y a le même nombre, il y a bataille. On recouvre alors les cartes identiques d'une carte face cachée puis d'une carte face visible. Celui qui a le plus grand nombre empoche toutes les cartes.
Celui qui pose un joker empoche toutes les cartes.
Le gagnant est celui qui ramasse toutes les cartes ou le plus de cartes.
